This is a concise, easy-to-read prescribing reference for advanced health care providers involved in the primary care management of patients with acute, episodic, and chronic health problems. Organized alphabetically by clinical diagnosis for quick access in all clinical settings, the guide encompasses CDC- and FDA-approved pharmacotherapy regimens for more than 500 clinical diagnoses along with clinically useful information. Another important feature is the inclusion of Comments highlighting such clinically important information as laboratory values, precautions and contraindications, and safety information. Each diagnosis includes appropriate drug choices listed alphabetically by generic name with trade name, FDA pregnancy category, drug availability in generic or over-the-counter forms, adult and pediatric dosing regimens, dosage forms, drug additives, and more. Thirty easy-to-use tables in the appendices include childhood and adult immunization schedules, contraceptive guidance, categories of glucocorticosteroids, anti-infectives by class, and more. An index of drugs by generic and brand name, with FDA pregnancy category and controlled drug schedule, facilitates quick identification of drugs by alternate names, and relative safety during pregnancy. **KEY FEATURES:** Includes free ebook and electronic updates with registration. Facilitates speedy drug prescribing information retrieval for primary care providers in all settings Organizes over 500 diagnoses

This book presents the proceedings of the 20th Congress of the International Ergonomics Association (IEA 2018), held on August 26-30, 2018, in Florence, Italy. By highlighting the latest theories and models, as well as cutting-edge technologies and applications, and by combining findings from a range of disciplines including engineering, design, robotics, healthcare, management, computer science, human biology and behavioral science, it provides researchers and practitioners alike with a comprehensive, timely guide on human factors and ergonomics. It also offers an excellent source of innovative ideas to stimulate future discussions and developments aimed at applying knowledge and techniques to optimize system performance, while at the same time promoting the health, safety and wellbeing of individuals. The proceedings include papers from researchers and practitioners, scientists and physicians, institutional leaders, managers and policy makers that contribute to constructing the Human Factors and Ergonomics approach across a variety of methodologies, domains and productive sectors. This volume includes papers addressing Musculoskeletal Disorders.
