The summer of 1939 was an epic turning point for America—a brief window between the Great Depression and World War II. It was the last season of unbridled hope for peace and prosperity; by Labor Day, the Nazis were in Poland. And nothing would come to symbolize this transformation from acute optimism to fear and dread more than the 1939 New York World's Fair. A glorious vision of the future, the Fair introduced television, the fax machine, nylon, and fluorescent lights. The "World of Tomorrow," as it was called, was a dream city built upon a notorious

garbage dump—The Great Gatsby's infamous ash heaps. Yet these lofty dreams would come crashing down to earth in just two years. From the fair's opening on a stormy spring day, everything that could go wrong did: not just freakish weather but power failures and bomb threats. Amid the drama of the World's Fair, four men would struggle against the coming global violence. Albert Einstein, a lifelong pacifist, would come to question his beliefs as never before. From his summer home on Long Island, he signed a series of letters to President Roosevelt urging the development of an atomic bomb—an act he would later recall as "the one great mistake in my life." Grover Whalen, the Fair's president, struggled in vain to win over dictators Benito Mussolini and Joseph Stalin, believing that his utopian vision had the power to stop their madness. And two New York City police detectives, Joe Lynch and Freddy Socha, who had been assigned to investigate a series of bomb threats and explosions that had terrorized the city for months, would have a rendezvous with destiny at the Fair: During the summer of 1940, in a chilling preview of things to come, terrorism would arrive on American shores—and the grounds of the World's Fair. Yet behind this tragic tableau is a story as incredible as it is inspiring. With a colorful cast of supporting characters—including Mayor Fiorello La Guardia, Robert Moses, and FDR—Twilight at the World of Tomorrow is narrative nonfiction at its finest, a gripping true-life drama that not only illuminates a forgotten episode of the nation's past but shines a probing light upon its present and its future. From the Hardcover edition.

Heart of Darkness (1899) is a novella by Polish-English novelist Joseph Conrad about a narrated voyage up the Congo River into the Congo Free State in the Heart of Africa. Charles Marlow, the narrator, tells his story to friends aboard a boat anchored on the River Thames. This setting provides the frame for Marlow's story of his obsession with the successful ivory trader Kurtz. Conrad offers parallels between London ("the greatest town on earth") and Africa as places of darkness. Central to Conrad's work is the idea that there is little difference between "civilised people" and those described as "savages." Heart of Darkness implicitly comments on imperialism and racism.
