

Collins Student World Atlas

Combining cartographic technology with physiographic and cultural content, this atlas has a section on the physical and natural world with core topics such as evolution of earth, geology, climate and biodiversity, a section on human activities such as population and migration as well as the seven continents. With hundreds of dramatic, full-color, large-format maps produced by Europe's finest team of cartographers, the fifth edition of the New Concise World Atlas solidifies Oxford's position as the only publisher of regularly updated atlases at every desirable size and price. Containing over 100 pages of the most up-to-date topographic and political maps, the New Concise World Atlas also features a new front section of satellite imagery to replace the old "Earth in Space" section, as well as new detailed maps of the ocean seafloors. In addition to this new front section, there are 16 extra pages of world maps for this new edition covering areas such as Kazakhstan, Central Asia, Egypt, Morocco, Algeria, Tunisia, Peru, and Brazil. Recent changes to the world's geography are thoroughly captured in this edition; fully updated tables and world statistics provide data on climate, population, area, and physical dimensions. Finally, an index with over 58,000 items make searching for lesser-known locales quick and easy. Truly international in scope, created with meticulous care, and reflecting the very latest political developments and census information, Oxford's New Concise World Atlas, Fifth Edition achieves the highest standard among international map resources. This engaging and affordable resource is second to none in the superb quality of its maps, the breadth of its coverage, and its easy-to-use convenience.

Completely new and extended edition of the best-selling Collins Student Atlas. Created specifically for Key Stage 4 students, and a vital tool for all students. Collins Student World Atlas has been specifically designed for students aged 14-16 years, however its well-researched uncluttered design makes it suitable for all students. This third edition has been extensively revised, updated and extended to include a dictionary of geographical terms. It features up-to-date reference and thematic mapping, mapping skills, country-by-country statistics and a fully comprehensive index to all names appearing on reference maps. Thematic maps and accompanying graphs and tables adhere strictly to the National Curriculum guidelines and cover topics such as Tourism, Telecommunications, Environmental and socio-economic topics. All maps have been fully updated using the latest statistical information available. The inclusion of a selective list of web addresses on each thematic page ensures students are motivated to explore more deeply into a topic. High quality satellite imagery, which has been selectively used within special topic or study areas, supports data on the maps and is used to illustrate key environmental issues. Extensive lists of statistics for demographic and socio-economic facts provide up-to-date data for students wishing to create their own graphs to support individual geography,

tourism, mathematics, economics or IT projects. Included in this edition is a CD-ROM which introduces the subject of GIS, now a topic included in the Geography curriculum. The CD is produced in association ESRI, who design and develop the world's leading geographic information system (GIS) technology. It gives a broad overview of the importance of GIS and its use in everyday life by environmental agencies, the military, the police, emergency services, supermarkets etc. Data and ESRI software included on the CD can be used by students to carry out exercises and activities contained in the CD.

The HarperCollins Student World Atlas contains ninety-two pages of reference maps complemented by highly illustrated coverage of major world issues and geography. Topics, which include climate and weather, the oceans, population, the world economy, and health and communications, are presented through satellite images, photographs, graphics, and detailed statistics. The comprehensive index contains over 45,000 place names and includes special gazetteer-style entries providing information about selected places and geographical features around the world.

A visual atlas that brings the world and its people to life with modern mapping, pictures, facts, and stories, perfect for kids ages 8-12, and fully revised and updated. Using modern mapping based on the latest seamless, cloud-free satellite image data, Children's Illustrated World Atlas takes kids on the ultimate round-the-world trip, from the Americas to Australasia and Oceania. Each detailed map is accompanied by pictures and stories that explore the society, culture, and history of each region, giving young readers an immediate sense of place not conveyed in standard atlases. Bite-size, country-by-country facts and stats are included at the start of each chapter for additional knowledge, and a place-name index identifies 7,500 locations around the world. Kids will even learn about popular discussion topics such as globalization, the environment, and the communication revolution in a contemporary introduction section. Together with facts, maps, satellite images, and local stories, this fully updated and revised Children's Illustrated World Atlas is a global yet personal experience and brings together views from all over the world - from Bolivia's bustling markets to carnival in Venice.

An extended edition with new topics including world agriculture, world climate change, low and middle economic developing countries, ecological footprint, and a comprehensive index.

"The education of girls and women is important not only as a matter of respecting a basic human right for half the population but as a powerful force for economic development and achieving social goals such as enhanced health, nutrition and civic involvement. This Atlas presents the latest data from the UNESCO Institute for Statistics on trends in educational access and progression, from pre-primary through tertiary levels and adult literacy, with special attention to the all-important issue of gender equality. These trends are depicted through colour-coded maps that make it easy for readers to visualize global and regional trends and to understand how they are shaped by factors such as national wealth and geographic location." -- P. [4] of cover.

The most up-to-date and easy-to-use pocket atlas available Highly detailed, innovative maps, designed specifically for this edition Comprehensive guide to the world's states and territories, including geography and population Facts and statistics for each country, including area, capitals, languages, religions, and currency Index to more than 2,000 place names

Published with ISME, ITTO and project partners FAO, UNESCO-MAB, UNEP-WCMC and UNU-INWEH This atlas provides the first truly global assessment of the state of the world's mangroves. Written by a leading expert on mangroves with support from the top international researchers and conservation organizations, this full colour atlas contains 60 full-page maps, hundreds of photographs and illustrations and a comprehensive country-by-country assessment of mangroves. Mangroves are considered both ecologically and from a human perspective. Initial chapters provide a global view, with information on distribution, biogeography, productivity and wider ecology, as well as on human uses, economic values, threats, and approaches for mangrove management. These themes are revisited throughout the regional chapters, where the maps provide a spatial context or starting point for further exploration. The book also presents a wealth

of statistics on biodiversity, habitat area, loss and economic value which provide a unique record of mangroves against which future threats and changes can be evaluated. Case-studies, written by regional experts provide insights into regional mangrove issues, including primary and potential productivity, biodiversity, and information on present and traditional uses and values and sustainable management. Contents THE WORLD MAP POPULATION OF THE WORLD MAP COUNTRIES A-Z FOR EVERY COUNTRY: POPULATION AREA COMPARISON POP. DENSITY CAPITAL CURRENCY MAP FLAG THE SITUATION

'Collins Student World Atlas' has been specifically designed for students aged 14-16 years, however its well-researched uncluttered design makes it suitable for all students. This third edition has been extensively revised, updated and extended to include a dictionary of geographical terms.

Student atlas.

Packed with beautifully designed and detailed maps, this world atlas is the perfect companion for young geography students. First published in 1988 and now in its 9th edition, Student World Atlas has been fully revised and updated. With 290 maps in total, it combines larger, traditional reference maps with smaller topic maps. These topics include industry, farming, climate, population, and the environment. Each theme will engage students, expanding their understanding of Earth and also making possible comparisons between different regions. For example, this student atlas not only displays an impressive map of the Caribbean, but highlights the hurricanes that continually threaten these islands and the people that live there. Then move to New Zealand map and learn about its diverse population of Polynesians, European settlers, and many other immigrants that make up this multicultural nation. On every page, you will discover more and more fascinating facts about each country's landscape and its inhabitants. In addition to maps, this clear and accessible atlas also includes up-to-date statistics and flags for every country. It distills the huge mass of information available about our world down to the essential facts needed for the effective and successful study of our ever-changing planet.

A colourful, engaging world atlas ideal for home or classroom especially designed for students in grades 5-8. Packed with full-colour maps, photographs, and easy-to-use charts and graphs. Includes thematic maps of continental drift, the ocean floor, the environment and natural resources, as well as a special Map Skills section introducing key geography concepts.
