A complete guide to the side-effects and treatments – both conventional and alternative – for endometriosis, from a respected name in the field who also suffers from endometriosis. Endometriosis is a debilitating reproductive and immunological disease that affects 7–10 million American women each year. The disease occurs when the same kind of tissue that lines the walls of the uterus grows outside the uterus in the pelvic cavity or some other area of the body, usually significantly affecting the woman's fertility and often causing pelvic pain. And as with any condition that affects fertility, the results are often emotional and psychological as well as physical. As someone who suffers from endometriosis, and who has connections to a wide network of healthcare professionals, Morris is the perfect person to guide sufferers through diagnosis, treatment and living well with the condition. Like the previous titles in our successful Living Well series, this book will offer a holistic approach to living with the disease. The author will offer strategies for coping with the psychological aspects of endometriosis, including how best to tell others about the condition; treatment options including alternative and complementary treatment plans; dealing with infertility; and weighing the hysterectomy option. The author will draw on her relationship with fellow sufferers as well as medical professionals to help readers, making this the most comprehensive guide to endometriosis available. Kerry–Ann Morris was diagnosed with endometriosis in 1999. Since then she has become one of the most active members of the endometriosis community, and has started an outreach website for the disease. She has relationships with many fellow sufferers and experts in the medical community, making her the perfect author for a book on holistic treatment.

In this book John Michael Greer turns his attention to the intellectual underpinnings and superstructures of the Pagan and magical movements. Pagan religions have tended to be more concerned with practice than with theory and in a system that has no dogma - no legislated doctrine - that is as it should be. Yet as our movement grows and matures, it is inevitable that we will begin to think in a more abstract way about our models and systems. John Michael Greer has provided a primer on the kinds of ideas and themes that must be included in any discussion of the theology and philosophy of Neo-pagan religions.

THREE MONTHS. IT WAS ONLY FOR THREE MONTHS. My name is Emma Knight and I'm a twenty-four-year-old woman who was moving from Miami to New York to pursue my dream of attending Parsons School of Design. My plan was set in motion. I was packed and already on my way when I met a man and received an email, both of which altered my plans and changed the course of my life. Max Hamilton, a twenty-five-year-old, panty-melting, rich playboy who was being groomed to take over Hamilton Securities, told me it was for only three months. His proposed deal was that I had to pose as his fiancée until his twenty-sixth birthday so he could collect his trust fund. I'd help him and, in return, he'd help

me achieve my dream. It was a win-win situation, right? WRONG. Love was never part of the deal and neither was the secret that Max could never find out about."

With a Foreword by Ara ParseghianThe debate over big-time college sports, never far from the front pages, has once again moved from simmering to hot. Congress has been investigating the tax-exempt status of the NCAA in part because of questions about how commercialized college sports contribute to educational values. Athletes are challenging the NCAA on antitrust grounds to get a bigger share of the revenue. Against this backdrop, more faculty are beginning to be concerned about what is happening at their own universities and to the educational system as a whole as rampant commercialism further invades campus life through big-time sports. A leader among faculty fighting back has been Allen Sack, a co-founder of the Drake Group whose writings and public appearances, including work as an expert witness, have gained him wide recognition as an outspoken advocate for athletic reform. This book brings together in a compelling way both his personal story of life as a highly recruited athlete out of high school and a football player at Notre Dame under legendary coach Ara Parseghian and his fight, since then, as a scholar-activist against what he calls the &"academic capitalism&" of the system under current NCAA rules. Sack distinguishes his own position, as an advocate of athletes&' rights, from the reformist stance of NCAA President Myles Brand, who believes that commercialized sport and education can peacefully coexist, and the &"intellectual elitist&" position of people like William Dowling, who would like to see big-time college sports kicked off campus altogether. It is a battle with high stakes for all concerned, not least the athletes whose exploitation by the system has been the motivating force for Sack&'s own campaign, now stretching over several decades.
