"The authors carefully considered how to thoughtfully and meaningfully integrate data analytics into the financial accounting course, and are pleased to provide the following data analytics resources. Data Analytics and Decision-Making The text provides numerous discussions on how decision-makers are increasingly relying on data analytics to make decisions using accounting information. Accounting software systems collect vast amounts of data about a company's economic events as well as its suppliers and customers. Business decision-makers take advantage of this wealth of data by using data analytics to gain insights and therefore make more informed business decisions. Data analytics involves analyzing data, often employing both software and statistics, to draw inferences. As both data access and analytical software improve, the use of data analytics to support decisions is becoming increasingly common at virtually all types of companies"--

Keeping its finger on the pulse of the profession, the new twelfth edition of this bestselling book effectively prepares readers for their accounting futures. Adapted from the successful US edition, Fundamentals of Intermediate Accounting by Kieso, Weygandt & Warfield, this text provides students with a thorough examination and explanation of concepts in financial accounting such as the conceptual framework, presentation of financial statements (and the major reporting issues related to assets), liabilities, equity, revenues and expenses. In response to the internationalisation of accounting standards, the diversity of students' backgrounds and the professional opportunities a study of commerce presents, this text offers a unique comparative analysis of the financial reporting requirements under the jurisdictions of IASB, FASB and AASB. The text provides students with an understanding of financial accounting reporting requirements globally that equips them with an international perspective on financial reporting procedures and issues. Accounting is the language of business and a qualification in accounting is seen as an international 'professional passport' for graduates. This text is ideal for commerce programs whose objective is to deliver an international context to the study of accounting. As the majority of financial accounting reporting principles covered in the text are discussed within the conceptual frameworks of Australia, the United States and International Accounting Standards, students will learn how to account for and appreciate accounting events on a global level. The text is ideal for the second course in financial accounting under the undergraduate program, Master of Professional Accounting, or subjects on international financial reporting.

The Student Practice and Solutions Manual to accompany Kieso Intermediate Accounting 17e contains a chapter review, and a selection of brief exercises, exercises, and problems with accompanying solutions from Kieso's Problem Set B which is similar to end of chapter material.
