THOMAS TROWARD'S WISDOM SHARED BY HIS ONE AND ONLY STUDENT WITH A NEW PREFACE BY PEN AWARD-WINNING AUTHOR MITCH HOROWITZ! Respect, Trust, and Commitment are the cornerstones of a dedicated relationship between a teacher and a student. For a passionate student yearning to learn and understand the essence of a subject, they must demonstrate these traits before a teacher will take them under their wing. In this case, the teacher was Thomas Troward of Cornwall, England and the student was Genevieve Behrend. He imparted his personal insight to the one and only pupil who could perpetuate this knowledge and share it with the world. Not long after her time with Troward, Behrend began her mission in New York City where she established and headed The School of the Builders until 1925. She established another school in Los Angeles; and then spent the next thirty-five years touring major cities throughout North America as a celebrated lecturer, teacher, and practitioner of Mental Science. Your Invisible Power was her first book and remains her most powerful and popular work. In this Original Classic Edition, Behrend presents the Troward philosophy at its best. Her incomparably direct and dynamic personality relates the life-changing concepts on a personal level. As Behrend says, "We all possess more power and greater possibilities than we realize, and visualizing is one of the greatest of these powers." She will motivate and inspire you with a powerful, yet simple and easy guide to open up the way to the attainment of your desires.

Facsimile of 1935 Edition. This volume contains the author's second group of experiences with Saint Germain. These experiences were the result of his applying the knowledge he had previously learned, as described in Unveiled Mysteries. "I LEFT you, my reader, at the end of Unveiled Mysteries, with the Great Ascended Master Lanto sending forth His Blessing to America and mankind from the Retreat in the Royal Teton. In this book I shall describe another group of important and wonderful experiences which I was privileged to have during those months of association with our Beloved Ascended Master Saint Germain." Herein the author continues his conversation with St. Germain, an Ascended Master, who is able to manipulate the fabric of reality. In Unveiled Mysteries the author, Guy Ballard, using the pen name Godfré Ray King, describes a series of astral trips in time and space with St. Germain. They travelled to lost civilizations in South America and the Sahara, as well as well-stocked bunkers of the ancients in the Grand Tetons, Yellowstone, and Mount Shasta. The author and St. Germain revisit past lives as citizens of Atlantis and Mu, and they turn out to be relatives. A final chapter mentions encounters with entities from Venus.

The problem of being is central to Western metaphysics. Etched sharply in the verses of Parmenides, it took on distinctive colouring in Aristotle as the subject matter of a science expressly labelled 'theological.' For Aristotle, being could not be shared in generic fashion by other natures. As a nature it had to be found not in various species but in a primary instance only. The science specified by the primary nature was accordingly the one science that under the aspect of being treated universally of whatever is: it dealt with being qua being.

"Each of these little books is witty and dramatic and creates a sense of time, place, and character....I cannot think of a better way to introduce oneself and one's friends to Western civilization."—Katherine A. Powers, Boston Globe. "Well-written, clear and informed, they have a breezy wit about them....I find them hard to stop reading."—Richard Bernstein, New York Times. "Witty, illuminating, and blessedly concise."—Jim Holt, Wall Street Journal. These brief and enlightening explorations of our greatest thinkers bring their ideas to life in entertaining and accessible fashion. Philosophical thought is deciphered and made comprehensive and interesting to almost everyone. Far from being a novelty, each book is a highly refined appraisal of the philosopher and his work, authoritative and clearly presented.

"Poems . . . like folk tales told by a child with an impishly surrealistic streak" from the Pulitzer Prize-winning author of The World Doesn't End (Library Journal). In this volume, "Simic writes so simply that his words fall like drops of water, but they ripple outward to evoke an ominous and numinous world" (The Washington Post Book World). He fills the wee hours of his poetry with angels and pigs, riddles and cemeteries. With empty offices and dolls that smile. With the sound of bare feet upstairs and a single kiss before the shadows converge. His is a rich, haunted world of East European memory and American present—a world of his own creation, one always full of luminous surprise. "The poems . . . come from a vision of the world that, once experienced, prevents us from ever dozing again, that prevents us, for that matter, from feeling confidently awake." —Los Angeles Times "One of the most original poets writing today, Simic has a gift for startling juxtapositions . . . Homely images, in Simic's hands, take on an eerie combination of the marvelous and the absurd . . . There are few poets writing today whose sense of wonder is so palpable." —Library Journal Praise for Charles Simic "Few contemporary poets have

been as influential—or as inimitable—as Charles Simic.” —The New York Times Book Review “He has infused American poetry with the freshest and most original style and imagery since e.e. cummings.” —St. Louis Post-Dispatch “His poems are crowded with uncanny presence, which he challenges with flirtatious directness.” —The New Yorker

"Why do I always see the numbers 444 (or 111, 333, etc.) everywhere I go?" is one of the most frequently asked questions that Doreen Virtue receives at her worldwide workshops. In her best-selling book *Healing with the Angels*, Doreen included a chapter that briefly explained the meanings behind these number sequences, and many people have commented that they carry the book with them everywhere to help them interpret the numbers they see daily. By popular request from Doreen's audience members, *Angel Numbers* has been created to serve as a pocket guide containing the angelic meanings of numbers from 0 to 999. Designed to fit into a purse or pocket for easy transport, *Angel Numbers* provides an interpretation of more complex number sequences than was previously available in *Healing with the Angels*. This new book focuses on numbers such as 123, 337, 885, and so on. Whether you're seeing these numbers on license plates, telephone numbers, the clock, or other locations, they're very real messages from the angels. *Angel Numbers* will help you instantly understand the meaning of these signs!

You'll also explore the mystery of consciousness, God in nature, and the role of nature spirits in planetary ecology. And you'll find answers to the most important questions every seeker of truth asks: Who am I? Where did I come from? Where am I going? And how do I get there?"

When a young graduate returns home he is accompanied, much to his father and uncle's discomfort, by a strange friend "who doesn't acknowledge any authorities, who doesn't accept a single principle on faith." Turgenev's masterpiece of generational conflict shocked Russian society when it was published in 1862 and continues today to seem as fresh and outspoken as it did to those who first encountered its nihilistic hero.

One needs a very sympathetic ear and a very sympathetic heart to understand these beautiful parables, which are a rarity in Osho's work because they don't come from the talks that have made him so famous -- the parables are actually written by him. Mystics like Buddha and Jesus talked in parables -- and in his book Osho provides us with sixty parables, anecdotes, and stories that speak directly to us -- contemporary people of the modern age. These parables and their metaphors are all very simple, and because they are so simple they have a purity, they are unpolluted by complicated rationalizations of the modern mind. They are straightforward and direct, aimed to the heart like an arrow. In these parables Osho says in a poetic way things that cannot be said in prose. He is expressing things from the heart, things that cannot be expressed by the head. Each parable is a lesson to bring insights into one of the most important issues we face in life. As he points out, a parable is a way to talk in pictures and not in words. And in our dreams, we are again living in parables because the unconscious understands only pictures. Your conscious has become trained for language, words, but the unconscious is still that of a child. When a mystic like Osho wants to communicate something from his innermost depth to your innermost depth -- he uses parables. They function like a seed, hovering around the consciousness and emerging into sharp focus when our everyday life experiences bring an opportunity to apply their lessons. It is very easy to remember them. In the preface to this book, Osho writes: "What do I find when I look deeply into man? I find that man, too, is an earthen lamp! But he is not just a lamp made of clay; in him there is also a flame of light that is constantly rising towards the sun. Only his body is made of earth, his soul is that very flame."

Knowledge, however, is an attribute of the soul, and so are perception, opinion, desire, wish, and appetency generally; animal locomotion also is produced by the soul; and likewise growth, maturity, and decay. Shall we then say that each of these belongs to the whole soul, that we think, that is, and perceive and are moved and in each of the other operations act and are acted upon with the whole soul, or that the different operations are to be assigned to different parts?-from Book I The writings of Greek philosopher ARISTOTLE (384BC-322BC)-student of Plato, teacher of Alexander the Great-are among the most influential on Western thought, and indeed upon Western civilization itself. From theology and logic to politics and even biology, there is no area of human knowledge that has not been touched by his thinking. In *De Anima*-which means, literally, On the Soul-the philosopher ponders the very nature of life itself. What is the essence of the life force? Can we consider that plants and animals have souls? How does human intellect divide us from other animals? Is the human mind immortal? All these questions, and others that seem unanswerable, are explored in depth in this, one of the most important works ever written on such eternal questions. Students and armchair philosophers will find it a challenging-and rewarding-read.

Jean Grondin completes the first history of metaphysics and respects both the analytical and the Continental schools while transcending the theoretical limitations of each. He reviews seminal texts by Parmenides, Plato, Aristotle, Plotinus, and Augustine. He follows the theological turn in the metaphysical thought of Avicenna, Anselm, Aquinas, and Duns Scotus, and he revisits Descartes and the cogito; Spinoza and Leibniz's rationalist approaches; Kant's reclaiming of the metaphysical tradition; and post-Kantian practice up to Hegel. He engages with twentieth century innovations that upended the discipline, particularly Heidegger's revival of the question of Being and the rediscovery of the metaphysics of existence by Sartre and the Existentialists, language by Gadamer and Derrida, and transcendence by Levinas. Metaphysics is often dismissed as a form or epoch of philosophy that must be overcome, yet by promoting a full understanding of its platform and processes, Grondin reveals its cogent approach to reality and foundational influence on modern philosophy and science. By restoring the value of metaphysics for contemporary audiences, Grondin showcases the rich currents and countercurrents of metaphysical thought and its future possibilities.

In this thought-provoking book, Patricia Cori takes time from her channeled work as the Scribe to the Speakers of the Sirian High Council to focus on her past-life experiences in ancient Egypt. The book begins dramatically with the traumatic recall of a past Egyptian life, when Cori relives a horrifying death by suffocation—from being buried alive. This experience propels her on a journey of exploration into the question of human immortality, leading her back to Egypt where she unravels the origins of the ancient Egyptians' obsession with the resurrection of the soul. Cori's discoveries reveal new perspectives on Egyptian mysteries, new timelines as to the beginnings of the civilization, and controversial ideas that link the earliest Egyptian cultures with even earlier civilizations, such as that of Atlantis. As she returns to sites of her former lives, Cori begins to receive messages through which she relives the past-life regression, guiding her to discover secrets of the ancient Egyptians. Finally, she travels beyond the veil of illusions into the "otherworld" of possibilities that lies beyond physical existence. This exciting book weaves strands of science, history, and metaphysics into a shimmering tapestry of personal discovery.

We have long since lost our faith in the idea that human beings could achieve human happiness in some future ideal state—a state that Thomas More, writing five centuries ago, tied to a topos, a fixed place, a land, an island, a sovereign state under a wise and benevolent ruler. But while we have lost our faith in utopias of all hues, the human aspiration that made this vision so compelling has not died. Instead it is re-emerging today as a vision focused not on the future but on the past, not on a future-to-be-created but on an abandoned and undead past that we could call retrotopia. The emergence of retrotopia is interwoven with the deepening gulf between power and politics that is a defining feature of our contemporary liquid-modern world—the gulf between the ability to get things done and the capability of deciding what things need to be done, a capability once vested with the territorially sovereign state. This deepening gulf has rendered nation-states unable to deliver on their promises, giving rise to a widespread disenchantment with the idea that the future will improve the human condition and a mistrust in the ability of nation-states to make this happen. True to the utopian spirit, retrotopia derives its stimulus from the urge to rectify the failings of the present human condition—though now by resurrecting the failed and forgotten potentials of the past. Imagined aspects of the past, genuine or putative, serve as the main landmarks today in drawing the road-map to a better world. Having lost all faith in the idea of building an alternative society of the future, many turn instead to the grand ideas of the past, buried but not yet dead. Such is retrotopia, the contours of which are examined by Zygmunt Bauman in this sharp dissection of our contemporary romance with the past.

Contrary to those who reject the Harry Potter books as a threat to Christian faith, Neal demonstrates how the lessons in these books reinforce the central messages of the Bible.

A publishing phenomenon in Spain: a moving, lyrical, far-ranging meditation on the deep joys of confronting oneself through silence by a Spanish priest and Zen disciple. With silence increasingly becoming a stranger to us, one man set out to become its intimate: Pablo d'Ors, a Catholic priest whose life was changed by Zen meditation. With disarming honesty and directness, as well as a striking clarity of language, d'Ors shares his struggles as a beginning meditator: the tedium, restlessness, and distraction. But, persevering, the author discovers not only a deep peace and understanding of his true nature, but also that silence, rather than being a retreat from life, offers us an intense engagement with life just as it is. Imbued with a rare beauty, Biography of Silence shows us the deep joy of silence that is available to us all.
