Just because you weren't born with a silver spoon in your mouth doesn't mean that you cannot achieve success and amass great wealth. In fact, some of the most successful and wealthiest people in the world were not born rich. Some of them are regular people just like you. But unlike regular individuals, people who become wealthy and successful have a few particular habits that have contributed immensely to their success. **The Importance of Habits in Achieving Success and Wealth** A habit is loosely defined as a behavioral pattern or an action that has been developed over time by repetition or by regularly performing the act. It is a type of action or behavior that a person does without consciously giving it too much thought. An example of a habit could be waking up at precisely 7 o'clock even without setting the alarm. Another example would be smoking a cigarette right after eating. Both of these actions can become habits if done often enough in a person's lifetime. Habits are important because when you create good habits, you are doing things that contribute to your success without expending too much effort or thought. It's like having passive income - you are getting the benefits without doing too much. Habits that promote good health, for example, will give you the energy to do more things that will increase your wealth. Habits that increase your knowledge will enable you to understand how things around you work. This enables you to become innovative and creative, both of which are characteristics of successful and wealthy individuals. Habits that have become second nature will dictate how you react to certain situations, how you behave in times of adversity, and how you will make your most important decisions in life. Successful people pulled off their accomplishments mostly because of their good habits.

But what is passive income? Passive income is highly sought after and often misunderstood. Passive income streams require an upfront investment and a lot of nurturing in the beginning. After some time and hard work these income streams start to build and are able to maintain themselves, bringing you consistent revenue without much effort on your part. Passive income is taking the modern financial industry like a storm. For a number of years now, entrepreneurs worldwide have been pushing passive income as the best way to unlock financial freedom and start earning big bucks for little long-term work. Passive income, essentially, is money that is earned without working. Don't get me wrong here - this isn't a get-rich-quick scheme. Building up streams of passive revenue doesn't come easy and will require a lot of time and determination to begin with, however in the long run sources of passive income will bring in money without you having to put in any more hours. And believe me, this is possible! I did myself, and if I did so can you. Active income x Passive income Many of us rely on active income to meet our expenses. Active income is money earned by putting in actual hours and being paid for each one. For example, a day job such as bank clerk requires workers to actually work daily to be paid. A bank clerk won't, of course, be paid their monthly salary if they don't attend work. Passive income, however, requires significant effort and super dedication to start but once established will generate money for years to come without you having to show up anywhere or clock-in to be paid by the hour. My first passive income was from an ugly not say disgusting property I bought in my late 20s. I renovated the place, and eventually rent it out. I was able to start with a small deposit (don't tell anyone or don't try this, but my small deposit came from a credit card! Really! I know it's

crazy! Just to remind you, this was long time ago). Don't be so crazy as I did, learn how to earn your own passive income, nowadays there are many ways and in this book you will learn many ways. Keep reading....Generating passive income takes time, dedication, determination, hard work and passion to make money - but all these are important factors in achieving financial freedom.
