developed with reading experts at the University of Roehampton, specially written for children just starting to read alone. "Irresistible for children learning to read." - Child Education Plus

Which animals come out at night? How do they find food in the dark? Where do they go during the day? In this book you'll find the answers and lots more about the secret world of night animals. The easy-to-read text has been specially written with the help of a reading expert. Suggested Web sites add to the adventure.

This book explains, in simple language and with clear illustrations, what the climate is, and how it is changing very rapidly at the moment, and the effects this is having on our planet. It tackles suggestions about what needs to change in the way people live, from power stations to farming, and explains why it's so difficult to do. Along the way, it also talks about what individuals can do, including tips on how to keep a clear head and not get overwhelmed by bad news. Part of the award-winning 'for Beginners' series, which includes Politics for Beginners, Business for Beginners and Money for Beginners. Full-colour illustrations throughout, combining diagrams and graphs with humorous comic strips. Created in collaboration with Steve Smith, head of Climate Science at the UK government's Dept of Business, Energy and Industrial Strategy, also a fellow at Oxford University.

"Which fish can breathe on land? Why do some crabs have to live in other animal's shells? In this book you can find lots of fascinating facts about the seashore and the
