The Merchant of Venice has been performed more often than any other comedy by Shakespeare. Molly Mahood pays special attention to the expectations of the play's first audience, and to our modern experience of seeing and hearing the play. In a substantial new addition to the Introduction, Charles Edelman focuses on the play's sexual politics and recent scholarship devoted to the position of Jews in Shakespeare's time. He surveys the international scope and diversity of theatrical interpretations of The Merchant in the 1980s and 1990s and their different ways of tackling the troubling figure of Shylock.

The book takes a hybrid approach between a "traditional" casebook and a problems-based casebook, incorporating a more thorough discussion of the law followed by cases then problems. Featuring a unique design that engages the reader and incorporates professional skills and experiential-type learning, *Contracts: A Modern Coursebook* is a revolutionary, classroom-tested book. Rather than playing "hide the ball," professors using this book will be able to say, "Here's the ball. Let's play catch." New to the Second Edition: Now Over 500 Questions and Problems, nearly doubling the number of questions and answers for professors to use to assess students. A new section—Questions for Review—tests students' understanding of the law before they try the more difficult analytic problems. Enhanced analytic problems—updated based on feedback from professors and students New cases with tighter editing to adjust the mix between classic and contemporary cases for greater balance, and to focus on the core lesson More flowcharts and tables, providing additional visual learning aids to help students synthesize concepts More examples and case illustrations to keep students engaged and to stimulate critical thinking Design enhancements, including a redesign of "Rule Boxes" that makes parsing the rule statements easier for students A new numbering system to more easily track "Learning Outcomes" to "Explanations" to "Case Law" to "Assessments"

Professors and students will benefit from: **Learning Objectives:** Unlike traditional casebooks, every chapter begins with three to seven precise learning goals. Millennials respond positively when learning objectives are stated at the beginning of a lesson. The defined learning objectives for each chapter help professors comply with ABA requirements to establish learning outcomes that consist of "clear and concise statements of knowledge that students are expected to acquire." **Clear and Concise Explanations of the Law:** Much like a hornbook, every chapter provides clear and concise explanations of the law. Overarching rules are identified and highlighted visually. An analytical framework is provided to help students parse the rule. Examples and Case Illustrations explain the parameters and application of the rule. **Test Yourself** questions are embedded exercises within the explanation section to let students assess their understanding of the rules. **Case Law—Developing Critical Reasoning Skills:** Since students learn the law before reading the cases, the focus of case analysis is on the reasoning that the court applies. By posing direct questions and giving students prompts to respond to as they read the case, students build critical reasoning skills, and, as a result, are better prepared for class. **Problem Solving and Analysis—Built-in Formative Assessment:** At the end of each chapter, the Problem Solving and Analysis section provides students the opportunity to build critical thinking skills (the highest level of Bloom's Taxonomy of Educational Objectives) through a series of thought-provoking hypotheticals based on real-world scenarios. The rich set of questions builds accountability and addresses the challenge of providing in-semester formative feedback to large classes to help professors comply with ABA formative assessment standards. **Contemporary Layout and Design:** The contemporary book design is optimized to improve readability, heighten student engagement, and increase retention. Concise and

Compact: Shorter than competing casebooks, the casebook can be used in 4-credit, 5-credit, or 6-credit courses. Classroom Tested: Contracts: A Modern Coursebook has been classroom tested over three years. More than 400 students have used the text for both the first year contracts course and as a supplement for a third year remedies course. Students have been overwhelmingly enthusiastic about the content, format, and approach.

An authorised reissue of the long out of print classic textbook, Advanced Calculus by the late Dr Lynn Loomis and Dr Shlomo Sternberg both of Harvard University has been a revered but hard to find textbook for the advanced calculus course for decades. This book is based on an honors course in advanced calculus that the authors gave in the 1960's. The foundational material, presented in the unstarred sections of Chapters 1 through 11, was normally covered, but different applications of this basic material were stressed from year to year, and the book therefore contains more material than was covered in any one year. It can accordingly be used (with omissions) as a text for a year's course in advanced calculus, or as a text for a three-semester introduction to analysis. The prerequisites are a good grounding in the calculus of one variable from a mathematically rigorous point of view, together with some acquaintance with linear algebra. The reader should be familiar with limit and continuity type arguments and have a certain amount of mathematical sophistication. As possible introductory texts, we mention Differential and Integral Calculus by R Courant, Calculus by T Apostol, Calculus by M Spivak, and Pure Mathematics by G Hardy. The reader should also have some experience with partial derivatives. In overall plan the book divides roughly into a first half which develops the calculus (principally the differential calculus) in the setting of normed vector spaces, and a second half which deals with the calculus of differentiable manifolds.

NAMED ONE OF THE BEST BOOKS OF

THE YEAR BY THE GUARDIAN “McConaughey’s book invites us to grapple with the lessons of his life as he did—and to see that the point was never to win, but to understand.”—Mark Manson, author of *The Subtle Art of Not Giving a F*ck* I’ve been in this life for fifty years, been trying to work out its riddle for forty-two, and been keeping diaries of clues to that riddle for the last thirty-five. Notes about successes and failures, joys and sorrows, things that made me marvel, and things that made me laugh out loud. How to be fair. How to have less stress. How to have fun. How to hurt people less. How to get hurt less. How to be a good man. How to have meaning in life. How to be more me. Recently, I worked up the courage to sit down with those diaries. I found stories I experienced, lessons I learned and forgot, poems, prayers, prescriptions, beliefs about what matters, some great photographs, and a whole bunch of bumper stickers. I found a reliable theme, an approach to living that gave me more satisfaction, at the time, and still: If you know how, and when, to deal with life’s challenges—how to get relative with the inevitable—you can enjoy a state of success I call “catching greenlights.” So I took a one-way ticket to the desert and wrote this book: an album, a record, a story of my life so far. This is fifty years of my sights and seens, felts and figured-outs, cools and shamefuls. Graces, truths, and beauties of brutality. Getting away withs, getting caughts, and getting wets while trying to dance between the raindrops. Hopefully, it’s medicine that tastes good, a couple of aspirin instead of the infirmary, a spaceship to Mars without needing your pilot’s license, going to church without having to be born again, and laughing through the tears. It’s a love letter. To life. It’s also a guide to catching more greenlights—and to realizing that the yellows and reds eventually turn green too. Good luck.
