The untold story of the worst disaster on the Great Lakes in U.S. History. On July 24th, 1915, Chicago commuters were horrified as they watched the SS Eastland, a tourism boat taking passengers across Lake Michigan, flip over while tied to the dock and drown 835 passengers, including 21 entire families. Rockefeller, Morgan, and Carnegie had bought into the ship business in the Midwest, creating a boom market and a demand for ships that were bigger, longer, faster. The pressure-filled and greedy climate that resulted would be directly responsible for the Eastland disaster and others. As dramatic as the disaster was, the subsequent trial was even more so. The public demanded justice. When the immigrant engineer who was being scapegoated for the accident was left out to dry by the ship's owners, penniless and down-on-his-luck Clarence Darrow decided to take his case. The defense he mounted, which he was too ashamed to even mention in his memoirs, would be even more shocking.

This book focuses on installing, configuring and optimizing Nessus, which is a remote security scanner for Linux, BSD, Solaris, and other Unices. It is plug-in-based, has a GTK interface, and performs over 1200 remote security checks. It allows for reports to be generated in HTML, XML, LaTeX, and ASCII text, and suggests solutions for security problems. As with many open source programs, Nessus is incredibly popular, incredibly powerful, and incredibly under-documented. There are many Web sites (including nessus.org) where thousands of users congregate to share tips, tricks, and hints, yet no single, comprehensive resource exists. This book, written by Nessus lead developers, will document all facets of deploying Nessus on a production network. * Nessus is the premier Open Source vulnerability assessment tool, and was recently voted the "most popular" open source security tool of any kind. * This is the first book available on Nessus and it is written by the world's premier Nessus developers led by the creator of Nessus, Renaud Deraison. * The dramatic success of Syngress' SNORT 2.0 INTRUSION DETECTION clearly illustrates the strong demand for books that offer comprehensive documentation of Open Source security tools that are otherwise Undocumented.

The Non-Philosophy of Gilles Deleuze takes up Deleuze's most powerful argument on the task of contemporary philosophy in the West. Deleuze argues

that it is only through a creative engagement with the forms of non-philosophy--notably modern art, literature and cinema--that philosophy can hope to attain the conceptual resources to restore the broken links of perception, language and emotion. In short, this is the only future for philosophy if it is to repair its fragile relationship to immanence to the world as it is. A sequence of dazzling essays analyze Deleuze's investigations into the modern arts. Particular attention is paid to Deleuze's exploration of Leibniz in relation to modern painting and of Borges to an understanding of the relationship between philosophy, literature and language. By illustrating Deleuze's own approach to the arts, and to modern literature in particular, the book demonstrates the critical significance of Deleuze's call for a future philosophy defined as an "art of inventing concepts." This book is a study of the city and urban life in Roman Palestine during the Talmudic period, 100-400 B.C. Rather than focus on a specific city, Daniel Sperber synthesizes what is known about city life in Talmudic Palestine to create a paradigmatic hypothetical Palestinian city. Drawing on numerous literary records for his information, he describes the structure and use of many physical aspects of the city, such as its markets, pubs, streets, bathhouses, roads, walls, toilets, and water supply. Rounding out the study is a chapter describing the archeological evidence, written by Sperber's colleague, Professor Joshua Schwartz. With the recent upsurge of interest in urbanization in the Greco-Roman world, *The City in Roman Palestine* will attract not only scholars of Judaic literature and history, but also classicists and ancient historians.
